PROFESSIONAL SUMMARY

Frontend Developer with over 2 years of experience building responsive and scalable web and mobile applications using React.js, React Native, and JavaScript. Skilled in creating dynamic user interfaces, optimizing performance, and delivering seamless user experiences. Passionate about writing clean, maintainable code and collaborating in fast-paced environments.

Technical Skills

- **Frontend:** HTML, CSS, JavaScript, TypeScript, React.js, Redux, Tailwind CSS
- **Databases:** SQL (MySQL)
- **UI/UX:** Responsive Design, Material UI, Styled Components
- **Version Control:** Git, GitHub
- **Tools & Platforms:** MS Excel
- **Others:** Multi-language support, Search bar with debouncing, API integration

Work Experience

Frontend Developer

Versed Technology - Aug 2023 to Oct 2024

- Developed a service-based platform similar to Urban Company, enhancing user engagement by 25% with infinite scrolling, multi-language support, and an optimized search experience.
- Integrated a search bar with debouncing, reducing API calls by 40% and improving search efficiency.
- Optimized frontend performance, improving page load times by 30% for large datasets and ensuring a seamless user experience.
- Built and maintained a scalable React.js application, improving state management efficiency and reducing unnecessary re-renders by 20%.
- Managed and streamlined inventory data, improving data accuracy by 95% and minimizing operational discrepancies.
- Designed and implemented a responsive UI using React.js, increasing mobile compatibility and user retention by 20%.

Frontend Developer

Versed Technology - May 2022 to July 2023

- Developed a Learning Platform for School Children, increasing student engagement by 30% with interactive features like book reading, progress tracking, and quizzes with multiple difficulty levels.
- Integrated REST APIs to fetch and display books dynamically, improving content delivery efficiency.
- Developed an interactive quiz module with progressive difficulty, unlocking quizzes after book completion to enhance learning motivation.
- Optimized UI/UX for a seamless and engaging learning experience, improving navigation and readability.
- Ensured responsiveness and cross-platform compatibility, making the platform accessible on both web and mobile devices, increasing reach by 35%.

Personal Project

Food-App

- Built a Restaurant Listing Platform, enhancing user experience with categorized restaurant displays based on cuisine, ratings, and location.
- Implemented a robust search and filter system, allowing users to search restaurants or dishes and filter results by rating, price, or distance, improving discoverability by 40%.
- Integrated RESTful APIs to fetch real-time restaurant data, menu items, and order details, ensuring accurate and dynamic content updates.

- Utilized React Router for seamless navigation and dynamic routing across different pages, improving page load efficiency and user engagement.

Education

MCA(Master of Computer Applications) – RKDF University Bhopal, 2022-2024

Certifications

- UI Developer – Naresh i Technologies, Hyderabad
- React Js - Udemy

Languages

- English (Fluent)
- Hindi (fluent)
