

Saurabh Rajput

Frontend Engineer

I am a passionate front-end developer with 2 years of hands-on experience building dynamic, responsive, and user-friendly web applications using React.js. I am experienced in developing single-page applications (SPAs) and utilizing React's core features such as hooks, context API, and react-router. I am comfortable with version control systems like Git and have a solid understanding of RESTful APIs.

WORK EXPERIENCE

Frontend Developer Versed Technology

09/2023 - 07/2024

Service based Startup

Learning Time 4 Mode

- Collaborated in building a learning platform for school children, replicating the client's existing mobile app (available on Google Play Store) with enhanced designs and upgraded functionality.
- Implemented interactive educational features, including video lessons, quizzes, and progress tracking, using **React.js** for the web interface.
- Designed and implemented responsive user interfaces for both web and mobile applications using **CSS Flexbox** and **CSS position** to ensure consistent layouts across devices.

Frontend Developer Versed Technology

08/2022 - 07/2023

Service based Startup

Learning Time 4 Mode

- Android application for connecting customers with service providers in Senegal. It serves as a marketplace where users can find a wide range of service suppliers, including real estate professionals, finance experts, transportation providers, domestic service workers, carpenters, builders, and more.
- Design an intuitive and user-friendly interface that caters to the needs of your target audience.
- Develop the Web application and Android application, implementing the designed UI/UX and integrating with the backend APIs.
- Focus on performance optimization and responsiveness for a smooth user experience.
- Designed and implemented responsive user interfaces for web and mobile platforms using **CSS Flexbox** and **CSS Positioning** to enhance layout consistency and performance.

SKILLS

Javascript

React.js

React Native

HTML

CSS

Tailwind

SQL

MSEXCEL

Git

GitHub

PERSONAL PROJECTS

Portfolio (08/2023 - 10/2023)

- Built a Portfolio based on the Javascript library React.js.
- We have a homepage over here with a bunch of links you can click on and it has a little title and description of myself.
- We can then click on projects and there is where I display all my projects and I provide all my project links.
- Designed and implemented responsive user interfaces for web and mobile platforms using **CSS Flexbox** and **CSS Positioning** to enhance layout consistency and performance.

Food-App (06/2024 - Present)

- **Restaurant Listing** : Display restaurants, categorized by cuisine, ratings, and location.
- **Search & Filter** : Search restaurants or dishes, filter by rating, price, or distance.
- **Integration with APIs** : Utilizes a RESTful API to fetch restaurant data, menu items, and order details.
- **React Router** : For navigation and dynamic routing across different pages.

CERTIFICATION

UI Developer - Naresh i Technologies, Hyderabad

-- Gained expertise in HTML5, CSS3, JavaScript, and modern frameworks like React.js. Mastered UI design principles, and responsive web design. Built project-based applications to demonstrate real-world development skills.

EDUCATION

MCA RKDF University Bhopal

06/2022 - 06/2024

Courses

- Computer Science
